Rosalyn Holmes

M.A.Ed., M.Ed., BCBA, LBA-TX

Founder & Clinical Director, Au-Some Teacher ABA Services — Spring, Texas

Rosalyn Holmes has spent **23 years in special education** — as a teacher, a district behavior leader, and an ARD facilitator — before becoming a BCBA and founding Au-Some Teacher ABA Services in the Houston area. She now works from both sides of the table: a district BCBA inside public schools and a clinical director leading in-home ABA therapy for children and families. Her work centers on one problem she knows firsthand — behavior plans that look right on paper but stall in real classrooms and real homes — and on building the bridge between ABA and education that makes them work.
